

## **Carbon Lifecycle Technology Consulting**

### **CLTC VISION**

#### **GENERAL PRINCIPLES**

- 1. We believe in the capacity of technology to take what was once considered unattainable and make it commonplace.***
- 2. We believe we are uniquely situated to assist our customers in the selection, design, and implementation of that technology.***
- 3. We believe each individual employee owns the ultimate responsibility for their continuing education, gaining of relevant experience, and management of their career.***
- 4. We provide an environment in which each employee can communicate their needs and desires to create the best possible results of their work.***
